

- AI Support, automated

# Resolve Faster with AI Workflows

Connect your help center, knowledge base, and CRM software. Dispatch resolves tickets, updates records, and trigs workflows

[GET STARTED](#)

Trusted by  
AI innovators:

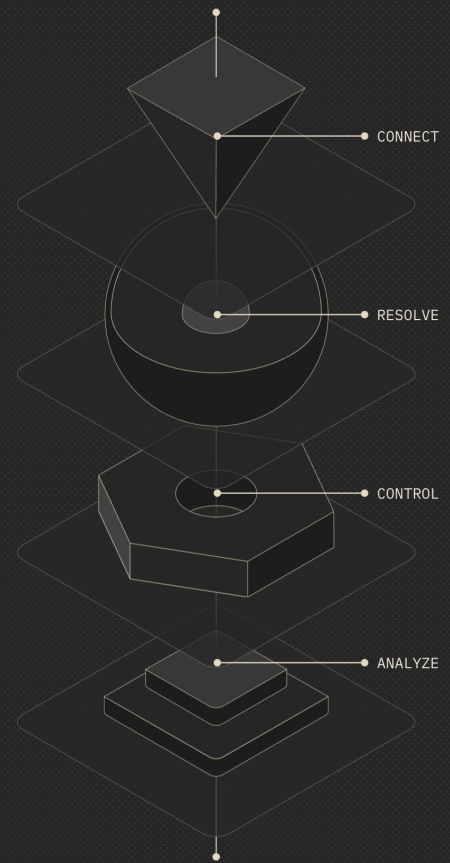

## 01 Connect Layer

- + Plug into Helpdesk, CRM and Chat
- + Capture requests across channels.
- + Unified Inbox signals.

## 02 Action Layer

## 03 Control Layer

## 04 Context Layer

[PLAY VIDEO](#)

Dispatch is an AI-powered operations layer for support teams that turns customer requests into completed work.

It connects your helpdesk, knowledge base, and CRM to resolve tickets, run approved workflows, and keep records accurate so your team ships faster outcomes with full visibility and control.

08 FAQ

Four layers that connect, decide, and execute.

Dispatch is built as a four-layer system that connects your stack, applies policies and approvals, and then executes real actions

**Policy control**

| IF                     | THEN                         | ACTIONS |
|------------------------|------------------------------|---------|
| Refund amount > \$200  | Require approval             |         |
| Confidence < 0.78      | Escalate to human            |         |
| Plan = Enterprise      | Route to CSM                 |         |
| Reason = Late delivery | Offer credit first           |         |
| Account is delinquent  | Pause refund, request review |         |

```
export const controlCode = [  
  'dispatch policy set refunds --require-approval "amount>200" --escalate "confidence<0.78"',  
  'dispatch rbac enforce --roles "support,ops,cs" --audit on',  
];
```

● Testimonials

What our partners  
say about Dispatch

Dispatch is trusted by fast-growing SaaS teams that need visibility, structure, and control across their support operations.

Dispatch transformed how our team operates — turning scattered processes into a unified AI workflow that saves us hours every single day.

• FAQ

## Frequently asked questions

### Do I need to train the AI myself?

No. Dispatch learns from your existing knowledge base, past tickets, and CRM data. It gets smarter over time based on agent corrections and resolved outcomes.

### What integrations do you support?

### Can I control what Dispatch automates?

### Is my data safe?

### How long does setup take?

### What does Dispatch actually do?

### STILL HAVE QUESTIONS? WE'RE HERE TO HELP

If you handle complex workflows or need  
custom integrations, our team can help.
